

# TRAINING & CONSULTING

## OUR TRAINING PROGRAMS

We strive to help companies implement technical competency improvement programs, that upgrades the technical and operational capabilities of the organisation. This leads to higher profitability as the companies are able to develop better products, reduce waste and rejected goods, and provide a satisfying product experience for their customers.

OCCUPATIONAL,  
HEALTH & SAFETY

PROCESS  
SAFETY

MANAGEMENT  
& LEADERSHIP

SALES  
& MARKETING

## FULL RANGE CONSULTANCY

IESB provides a full range of business consulting services that is aimed to transform the organisation into a sustainable and operational excellence entity. This may include business process restructuring, mindset training or performance coaching, that is intended to align any organisation's systems and culture towards new strategic direction. IESB provides high quality engineering consultancy and project management services to the oil and gas sectors.

# COMPREHENSIVE TRAINING PROGRAMS

Our training programs are highly experiential, and uses games and activities to encourage active participation and learning from our trainees. This training methodology has been proven to enhance learning effectiveness compared to traditional classroom learning.

We're associated with various firms and other consultants and specialists in the field of engineering and training to provide a full and all-in consultancy services to ensure satisfaction of our clients.
